

I wish to express my sincere dis-satisfaction with the potential changes to XM radio. I pay to listen to XM radio and think that I should be able to listen to anything I wish to listen to. XM radio has actually made radio listening enjoyable again and the local weather and traffic is a giant PLUS. I think that instead of the regular radio stations complaining, they should find a way to improve their services. But, for now, please leave my XM radio alone. I enjoy having the ability to listen to what ever I want to.

Thank you for your time.

LARRY McNALLY
